WHAT TO KNOW

In 2016, Dan went to Coturri Winery to help out with harvest, and he essentially never left. His winemaking philosophy follows the “Coturri Way,” with nothing added and nothing taken away. Starting in 2019, Dan took over as the winemaker and operator of the Sonoma Mtn Winery label and launched his own label, D MARIONI, shortly thereafter. This is why our portfolio has both wines available. MARIONI (page 6) and SONOMA MTN WINERY (page 10).

Up to the 2020 vintage, all wines were made on site at the Coturri Winery - produced and Bottled by H. Coturri & Sons. No fining, no filtering, no added SO2. The 2020 vintage was vinified at Magnolia Wine Services in Sonoma, CA – which is rapidly becoming the hub of natural wine making in Sonoma proper.

LABELS

The 2018 MARIONI labels are original black ink linocut prints carved by Dan, but are brilliantly designed by Jessie Coccia (www.jessiecoccia.com). Each cuvee has its own spirit animal, brand or symbol that reflects the personality or maybe just something fun.

VINEYARDS

Our approach to farming follows the tenet that more in the vineyard equals less in the cellar. Our mission is to prove that hand-farmed, intentional and sustainable farming practices lead to the highest quality wines. All our practices are organic and we are always striving to minimize sulfur applications and irrigation, while keeping the vines alive and happy in their space. We want to build diverse vineyard space in Sonoma, free of chemicals and pesticides. You could say that we're revitalizing old vineyards, soil and microbiology one vineyard at a time.

2011 was a notoriously underripe year. So much so that Tony Coturri let his son Nic take all the estate fruit. Nine years later the wine is ready for the market. Cedar, tobacco and aged fruit notes make this a great library Zinfandel. This wine's unique lean quality and energy make it very drinkable. One of a kind.

THANK YOU
